1. On 23 October 1951, the Schlieffen Kaserne on Potsdamer Dam, Stahnsdorf (N 53/ Z 73), was occupied by only a small detachment of soldiers. Sentries at two gates wore black-bordered black epaulets, and a sentry at a third gate wore red-bordered black epaulets. Trucks were seen hauling coal to the installation. 25X1C

2. The Siegfeld Kaserne on Gueterfelder Dam was not occupied to capacity. Officers observed in the yard included 11 with black epaulets, 1 with red epaulets and 1 with green epaulets. Local residents said that a small unit had left the installation some time before. Four radio masts, about 8 meters high and about 1.5 meters apart, stood opposite the barracks installation. They mounted two antenna wires and a lead to the installation. Sedan was seen driving from the Ludendorff Kaserne to the Siegfeld Kaserne. In addition, trucks were identified at the Siegfeld Kaserne. 25X1C

3. The Ludendorff Kaserne was only lightly occupied. Troops observed there wore black-bordered black epaulets, including some with signal insignia. *

25X1A* Comment. the three barracks installations, in which signal units of the GOFG are carried, to have still be occupied to capacity in the middle of September 1951. . The present report indicates that the units left for field exercises. The vehicle numbers mentioned probably belong to the GOFG, and sedan to a headquarters unit of the Second Gds Macz Army. 25X1A 25X1C
